

- July 2014 community meeting
- A standing retreat committee of 2-4 persons is needed to do the organizational tasks that happen before retreats: -keeping tracking of registrations and sending out registration packets. - making sure people respond and return registration forms. - communicating group size and dietary needs to the retreat facility. -communicating with retreat teachers, setting up sign up sheets for the weekend schedule. This is different than a retreat manager, who is at the retreat itself.
- We realize it would be good to have a back up retreat manager in case the primary person needs to step out. Joy has volunteered to be the retreat manager at the flaw retreat. Would someone like to volunteer to be a back up?
- The sangha directory will be put up on the site soon, with a password access only to protect information. Those who are in the directory will receive the password. If you'd like to be added, there will be a link to add yourself, after which the password will be sent to you.
- Lou has been unable to find a licensed childcare person or center to offer child care for the Sunday sittings. He asks for help from anyone who might be more in the child care market in finding a licensed person nearby that would be willing to offer care on Sunday mornings.

We still want to keep our eyes open for possible new class space. Calvary Methodist is open to our making the room we rent better suited to our needs. We'd like to buy a couple of floor lamps, so that we don't need the overheads, adding a rug and leaving some mats, cushions, etc. in an inconspicuous place in between classes.
